Suomen Puunhoidon Yhdistys SPY ry

Finnish Tree Care Association – The promoter and expert
in tree care of built environments in Finland since 1996

Purpose of the association

The purpose of the association is to promote modern tree care in the built environment. The modern tree care respects natural laws and biology of the trees. The main task of the association is to provide expertise regarding the correct work methods and approaches, and to make the tree care industry better known.

The association organizes and promotes e.g. urban tree related

- excursions
- seminars
- events
- publications.

Additionally we co-operate with tree care organizations and landscape industry-related parties in Finland and abroad. The association is a member of the European Arboricultural Council (EAC) and the Finnish Association of Landscape Industries (VYL).

Through us you can also find professional companies in the tree care industry.

Membership in the association

Our association consists of arborists and other landscape professionals with an interest in tree care. Also tree care companies may apply for membership in the association. We have approx. 200 members and are growing steadily (2010).

The current membership fees can be found at the association's website at: www.suomenpuunhoidonyhdistys.fi.

Familiarize yourself with our activities in the web and sign up to be a member. A free form membership application can be sent to the secretary of the association: sihteeri@suomenpuunhoidonyhdistys.fi.

The association publishes a member newsletter (in Finnish) four times per year. In the newsletter you can find news and information concerning events arranged by the association and other matters of importance to the tree care industry.
